4M 4x IR Network Active Deterrence 3inch Mini PTZ

TD-8343IE2N(A/PE/04M/AR5)

System

TVT TD-8343IE2N (A/PE/04M/AR5) 4MP 4x Network IR mini PTZ, adopts high quality 4x optical AF lens and could output max 4MP30fps ultra HD stream, covering a medium size area. Featuring its high performance, it could meet the demand of small-sized video surveillance application. The H.265 encoder could reduce video bandwidth to 50% of H.264 without loss of image details. With high-performance AI engine, it supports multiple human/vehicle detection, classification and auto tracking and active deterrence. In a typical dim night,upon detecting of illegal intrusion, the camera will trace moving object, zoom fit in the center screen, turn off IR light and turn on strong white light, play warningsound, until the object leave out of the alert area,then the camera return to patrol mode-- scan 360° around to find invaders, and so on. With deterrence mode, the camera captures colorful images instead of B/W, improvingconfidence as court evidence. While in patrol, the PTZ keepssilent and no strong white light disturbs to neighbors and community. The series of PTZ conforms to the ONVIF specifications ensuring interoperability between network video products regardless of manufacturers, and also complies with NDAA 2019. This PTZ has metal main body, water-resistant glass, IP66/IK10 class protection, which could work 7/24H in common outdoor weather.
